Refined, distinctive and muscular, the stylish new CR-V is packed full of clever ideas and helpful innovation. It shares your spirit for adventure and gives you the flexibility and freedom to explore.

BUILT FOR ADVENTURE
PACKED WITH INNOVATIVE TECHNOLOGY

Refrined, distinctive and muscular, the stylish new CR-V is packed full of clever ideas and helpful innovation. It shares your spirit for adventure and gives you the flexibility and freedom to explore.
The CR-V has a real presence, a powerful, contemporary shape that is enhanced by its bold, dynamic grille, sleek, sculpted integrated headlights, and smart alloys. So wherever your journey takes you, mountain road or high street, you’ll never look out of place.

Model shown is 1.6 i-DTEC 4WD EX in Passion Red Pearl, with optional Honda SENSING. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle.
ADVANCED
SLEEK AND STYLISH

The CR-V’s fluid lines have been carefully considered to enhance design and assist performance resulting in a sleek, dynamic look that also channels airflow more efficiently to improve fuel economy.

Design details such as the chrome tailgate garnish and rear skid plate give the CR-V an individual and purposeful look. The curved edges of the door mirrors harmonise with the overall design and reduce blind spots around the car. The dramatic windows offer superb all round visibility, not only making it easy to see out, but making it a pleasure to be seen in.

*For more information on which grades these and other features are available on, please refer to specification pages 43-46.
The CR-V even makes life easier before you step inside, as Smart Keyless Entry locks and unlocks the doors and will also start the engine – without you having to search for the key.

*For more information on which grades these and other features are available on, please refer to specification pages 43-46.

Model shown is 1.6 i-DTEC 4WD EX with automatic transmission and black leather interior. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle and will show its speed in miles per hour.

**WELL EQUIPPED AND WELL THOUGHT OUT**

Refined, spacious and intuitively designed. The CR-V’s cockpit ensures that every feature is positioned just where you need it, to keep the driver in full control at all times. The clean and elegantly laid out dashboard presents advanced driving technology in the simplest of ways, placing essential information directly in the line of sight, for instant readability.

This convenience is continued with our intelligent Multi Information Display (MID) screen that provides useful information about your journey, with instinctive operation via controls located on the leather steering wheel*. This, together with the new Honda CONNECT touchscreen entertainment system, puts you in total control.
We’ve developed innovative and intelligent technology that enhances every journey. The CR-V incorporates the new Honda CONNECT® in-car audio and information system which keeps you in touch with all the things you love in life, like your music and your friends, all within one central touchscreen display which can be controlled with smartphone-like operation.

Honda CONNECT offers excellent connectivity to keep you in touch whilst on the road through Wifi tethering* or Mobile Wifi Router. The Honda CONNECT 7” touchscreen can be personalised with your favourite photos. It is also easy to select the soundtrack to your journey with Aha™ radio. You can listen to your favourite internet-delivered music services and radio programmes from around the world including news, weather, sports, podcasts and audiobooks.

The Bluetooth™ connectivity allows you to connect your smartphone to the Hands Free Telephone system within the car. Furthermore it is possible to browse the internet** on your touchscreen. Garmin’s award-winning satellite navigation is available as an option in Honda CONNECT and uses a simple icon menu to provide you with real-time traffic information, road speed limit warnings as well as access to 5 years free map updates.

Honda CONNECT is also MirrorLink enabled***.

### PERSONALISED HOME SCREEN

Personalise Honda CONNECT by uploading your favourite photo as wallpaper. The display can be customised and personalised to suit your style.

### BLUETOOTH™ HANDS FREE TELEPHONE

Use the intuitive touchscreen to access all your mobile phone contacts.

### GARMIN NAVIGATION

Garmin PhotoReal™ displays upcoming junctions with photo-realistic images of junctions and exits with arrow lane indications to provide clear guidance. The system also includes pinch gestures, real-time traffic avoidance, real-speed limit display, 3D building, terrain views and more.

---

* Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package.
** Function can only be used when the car is stationary.
*** This feature is only available where user’s smartphone is supported. Honda CONNECT technology enables the user to mirror their smartphone display and gain access to their smartphone applications.

† For information on which grades these features are available on, please refer to specification pages 43-46.

Model shown is 1.6 i-DTEC 4WD EX.

◊ On the SE grade optional Honda CONNECT with Garmin Navigation & CD player is only available with optional Driver Assistance Safety Pack. For more information, please contact your local Honda dealer.

AHA™ The Aha™ enables you to connect to internet radio, access your Facebook™ and Twitter™ accounts and find nearby restaurants and hotels.
Welcome to your haven from a busy world. The CR-V’s spacious interior has been designed to create a quiet, refined and relaxed ambiance. It’s a very pleasurable space to travel in, as a driver or passenger.

Soft touch material on the door panels and dashboard add extra quality, while a choice of seat fabrics, including leather in classic black or contemporary beige, add a genuine sense of comfort. Power lumbar support in the driver and passenger seats* can be adjusted for overall comfort whilst you drive, while the driver seat’s electronic memory* records two programmable settings.

**DRIVER MEMORY SEAT**

Allows up to two drivers to have their preferred seating position saved.

**FRONT HEATED SEATS**

Both the driver and front passenger seats include two-stage heating.

**DRIVER MEMORY SEAT**

Allows up to two drivers to have their preferred seating position saved.

**Plug-and-play features include:**

- Bluetooth®
- USB
- iPod®
- AUX

For more information on which grades these and other features are available on please refer to specification pages 43-46.
ENJOY THE FLEXIBILITY

Developed with comfort and adaptability in mind, the CR-V is designed for maximum space and flexibility. Our engineers started at the front, creating more legroom for the driver and front passenger and increased all round visibility, making you feel more comfortable and confident when driving.

The rear seats, coupled with a reclining backrest and curved door linings, create more room for your passengers to relax in. The final result is an open and highly adaptable space that allows everyone to arrive recharged, no matter how long or short the journey.

The handy one-motion folding seats mean creating space for bulky items is one motion away. Just by pulling each lever in the back or the strap at the side of the passenger seat, the rear seats fold seamlessly, creating a flat base in an instant, opening up a generous 1146 litres of boot space.*

The 60:40 split rear seats fold to create a large amount of boot space and the flexibility to transport a range of different items to suit your lifestyle.

*Measurement based on luggage capacity to base of window with seats folded. Model shown is 1.6 i-DTEC 4WD EX with beige leather interior. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle.

INTERIOR SPACE
The CR-V is full of ideas and pioneering technology, working together to increase efficiency.

Take the new innovative 1.6 i-DTEC engine available on the four wheel drive CR-V, with 160PS and 350/Nm of torque and CO2 as low as 129g/km for the manual transmission and 134g/km for the automatic transmission. That’s more power and torque for you when you need it without compromising on economy.

Then there’s the electronically controlled 4WD system. As front wheel drive is the default mode for standard driving conditions, the CR-V’s 4WD automatically kicks in when loss of traction, caused by wet, icy or slippery surfaces, is detected. And because this upgraded system is always monitoring the road surface, it cleverly ensures that power is only given to the wheels that need it, being more fuel-efficient at the same time as delivering confidence-inspiring grip and stability.

Smooth power delivery is not the responsibility of the engine and 4WD system alone, which is why we’ve introduced the choice of a new 9-speed automatic transmission* for our advanced 1.6-litre diesel. Nine gears mean the right ratio is always available, making acceleration and deceleration smoother, maximising engine responsiveness and economy and reducing emissions.

*Available from Summer 2015. Please speak to your local dealer for further details.
At Honda we take an engine and run it on full power. Not for a few hours, but for days. We cool it down, we heat it up. Again and again.

Then we take it all apart and check down to the very last component to see if it all works as it should. Mad? Possibly. Obsessive? Definitely. But the results speak for themselves.

The 155PS 2.0 i-VTEC petrol engine features Variable Timing and Lift Electronic Control for optimised output at high engine rpm, and fuel efficiency at lower rpm. It’s available as a 5-speed automatic with 4WD, or 6-speed manual transmission in a choice of 2WD or 4WD powertrains.

Our innovative 1.6 i-DTEC diesel engines give you a finely tuned balance of performance and efficiency. Available with 120PS on the 2WD version and 160PS when coupled with 4WD, they offer a lighter feel and more agile drive than other diesels, delivering 350Nm of torque and CO2 emissions as low as 115g/km. The 9-speed automatic transmission* is available with our advanced 4WD technology, whilst the 6-speed manual transmission is offered on both the 2WD and 4WD models. We believe the 1.6 i-DTEC engine could be the future of diesel engines; we call it Earth Dreams Technology.

*Available from Summer 2015. Please speak to your local dealer for further details.
To further help you drive efficiently and reduce emissions, simply press the ECON button.

CR-V THINKS ECONOMICALLY
CONSTANTLY MONITORING THE ROAD CONDITIONS

The CR-V comes with Honda’s convenient Eco Assist.

To help you drive efficiently and reduce emissions, simply press the ECON button. Drive smoothly, avoiding heavy acceleration and braking, and the ambient meter around the speedometer glows green; brake or accelerate sharply and the ambient meter glows white.

The ECON button helps achieve maximum fuel efficiency in real-world driving situations. When activated, fuel economy is improved by adjusting the performance of the engine, transmission, air conditioning and cruise control, to conserve fuel even further.
COMMITTED TO KEEPING YOU SAFE

A great deal of complex engineering is at work in the CR-V keeping you and your passengers safe.

Honda is committed to building the very best safety features, most of which come as standard across all grades, as attested by the Euro NCAP 5 star rating the CR-V has been awarded, the maximum rating available in these independent crash tests.

Clever technology is always at work while you drive the CR-V and often you'll never know it's there, even when you're using it. It's all about co-operative control, with each safety feature working seamlessly together to give constant support to the driver.

**SAFETY**

By adjusting engine torque and applying precisely the right amount of braking to the relevant wheels, Trailer Stability Assist brings the payload back into alignment.

**TRAILER STABILITY ASSIST**

When towing, Trailer Stability Assist constantly monitors the movement of the trailer relative to the CR-V and if it sees too much difference (for instance in a cross-wind or when changing lane), it steps in before things get dangerously out of line.

**HILL DESCENT CONTROL**

Hill Descent Control allows a smooth and controlled hill descent if the push of a button, without the driver needing to touch the brake pedal. The system monitors the speed of the vehicle as it descends and if the vehicle accelerates without any driver input, the system will automatically apply the brakes to slow the CR-V down.

**HEADLIGHT TIMER OFF**

Sometimes known as ‘coming home lights’, this system allows you to set your headlights on for up to 90 seconds after you have turned off the engine, lighting your way as you leave the CR-V.

**VEHICLE STABILITY Assist**

Hill Start Assist prevents roll back when starting on an incline. Using a slope sensor the brake pressure is controlled, keeping the car stationary for 1½ seconds after you release the brake pedal.

**HILL START ASSIST**

**EMERGENCY STOP SIGNAL**

Emergency Stop Signal rapidly flashes the hazard warning lights, warning following drivers if you need to brake heavily, reducing the possibility of an impact.

When braking, Brake Stability Assist constantly monitors the movement of the brake relative to the CR-V and if it needs to make differences (for instance in a cross-wind or when charging lane), it steps in to make things get dangerously out of line.

By adjusting engine torque and applying precisely the right amount of braking to the relevant wheels, Brake Stability Assist brings the payload back into alignment.

**ELECTRONICALLY CONTROLLED 4WD SYSTEM**

Real Time All Wheel Drive with Intelligent Control System gives the CR-V completely automatic, smooth four wheel capabilities in rain and snow on dirt roads and dry tarmacs.

**HILL DESCENT CONTROL**

Hill Descent Control allows a smooth and controlled hill descent if the push of a button, without the driver needing to touch the brake pedal. The system monitors the speed of the vehicle as it descends and if the vehicle accelerates without any driver input, the system will automatically apply the brakes to slow the CR-V down.

**HILL START ASSIST**

Hill Start Assist prevents roll back when starting on an incline. Using a slope sensor the brake pressure is controlled, keeping the car stationary for 1½ seconds after you release the brake pedal.

SAFETY

Everyone wants to protect their family.
And no-one understands this more than us, which is why we offer Driver Assistance Safety Pack technologies.
The City-Brake Active System†, which is standard on all grades, monitors the traffic in front of the car and warns of a forward collision, allowing the driver time to take action, even applying emergency braking to reduce speed as much as possible if no action is taken by the driver.

You can get that extra peace of mind by taking advantage of our most advanced technologies, such as our Lane Departure Warning alarm and the clever Forward Collision Warning, which monitors the area around the car to help you avoid collisions and keeps everyone that bit safer.

Cross Traffic Monitor
When reversing, the Cross Traffic Monitor can detect approaching vehicles from either side and warns the driver of imminent danger. The warning appears on the i-MID.

Lane Departure Warning
When road lines are detected and the car deviates from your current lane without indicating, Lane Departure Warning alerts you to the fact with audible and visual warnings.

Highbeam Support System
The Highbeam Support System assesses the driving conditions around you and switches automatically between high and low beam.

Honda SENSING is a suite of technologies which includes all the safety features of the Driver Assistance Safety Pack, with the addition of Collision Mitigation Braking System, Intelligent-Adaptive Cruise Control and our Lane Keeping Assist System.

Honda SENSING can help you sense things you might miss whilst driving, making it not just safer but practical as well. Providing enhanced collision mitigation to help you avoid an accident by giving the driver visual and audible warnings, and if necessary, applying automatic braking.

Lane Keeping Assist System**
Lane Keeping Assist System uses a camera mounted behind the rear view mirror, which constantly ‘senses’ the line marking on the road. Lane Keeping Assist System emits an audible warning if the vehicle drifts off course, and automatically corrects the steering to get you back on track, helping you to stay in your lane safely.

Honda SENSING can help you sense things you might miss whilst driving, not only vehicles but pedestrians as well. Providing enhanced collision mitigation to help you avoid an accident by giving the driver visual and audible warnings, and if necessary, applying automatic braking.

Intelligent-Adaptive Cruise Control**
Demonstrating Honda’s commitment to advanced technology and safety, Intelligent-Adaptive Cruise Control not only monitors vehicles in front of your CR-V but also those in neighbouring lanes predicting when a vehicle will cut in front of you up to five seconds before it occurs.

**For more information on which grades these and other features are available on, please refer to specification pages 43-46.

†City-Brake Active System operates 3 - 20 mph.
‡Images are shown for illustration purposes only and show a left hand drive vehicle.
In the UK, the CR-V will be a right hand drive vehicle.
*On the SE grade optional Driver Assistance Safety Pack is only available with optional Honda CONNECT with Garmin Navigation & CD player.
For more information, please contact your local Honda dealer.
WHAT DOES YOUR CR-V LOOK LIKE?
**S grade**

**1.6 i-DTEC 120PS 2WD**
- 6-Speed manual transmission
- Electric driver lumbar support
- Climate control dual auto A/C
- Magic Seats

**2.0 i-VTEC 155PS 2WD**
- 6-Speed manual transmission
- Security alarm system
- Climate control auto A/C
- Magic Seats

### Features

- **Rear wiper**
- **Front and rear power windows**
- **One touch power window**
- **Aspheric door mirror**
- **Tilt and telescopic steering wheel**
- **Electric adjustable and heated door mirrors**
- **Driver seat manual height adjustment**
- **Driver seat power lumbar support**
- **Driver and passenger seat arm rest**
- **Rear seat centre armrest**
- **Rear seat centre armrest**
- **Engine immobiliser**
- **Security alarm system**
- **Tonneau cover**
- **City-Brake Active System**
- **Driver i-SRS airbag (dual stage inflation)**
- **Passenger SRS airbag with cut off switch**
- **Side airbags (front)**
- **Side curtain airbags (front and rear)**
- **Anti-Lock Braking System (ABS)**
- **Electronic Brakeforce Distribution (EBD)**

Images are shown for illustrative purposes only and show a left hand drive vehicle. A feature, the CR-V shown may not be available at launch: Please refer to the website for more information. All specifications subject to change without notice. Specifications for existing vehicles are subject to change without notice. Honda reserves the right to make changes to any information at any time. Model shown is a 1.6 i-DTEC 2WD S in Twilight Blue Metallic with 17” alloy wheels. For full specification of this grade please refer to pages 43-46.
In addition to features available on the S grade, the features on the SE grade include:

- Leather wrapped steering wheel
- Front fog lights
- Instrument panel inlay (alloy effect)
- Honda CONNECT 7” touchscreen display with:
  - AM/FM/DAB tuner, internet radio, Aha™ app integration* and internet browsing*
  - 2 x USB/HDMI connection†
  - 6 speakers
  - Bluetooth™ Hands Free Telephone (HFT)
  - Rear parking camera
- Dusk sensing auto lights
- Rain sensing auto wipers
- Auto dim rear view mirror
- Front and rear parking sensors
- Park assist (automatic reverse parking)
- Electrochromatic rear view mirror
- Rearview mirror detecting driver’s eye operation
- Driver’s seat memory function
- Driver’s seat memory function
- Paddle shift (automatic transmission only)
- Steering wheel light
- Hill Descent Control (HDC) (4WD only)

Optional:

- Honda CONNECT with Garmin Navigation & CD player, in combination with Driver Assistance Safety Pack, including:
  - Forward Collision Warning
  - Traffic Sign Recognition System
  - Lane Departure Warning
  - Blind Spot Information incl. Cross Traffic Monitor
  - Highbeam Support System

Model shown is 1.6 i-DTEC 2WD SE in Golden Bronze Metallic with 17” alloy wheels.
SR grade

In addition to features available on the SE grade, the features on the SR grade include:

- Half alcantara, half leather interior
- Heated seats
- Driver and passenger ambient footwell light
- Ambient door light
- Silver roof rails
- Privacy glass
- Headlight washers
- HID headlights with auto levelling
- Active cornering lights
- Honda CONNECT with Garmin navigation, CD player, AM/FM/DAB tuner
- Aha™ app integration
- Eight speakers (320W stereo audio)
- Passenger seat power lumbar adjust
- Passenger seat height adjust

Optional:

- Driver Assistance Safety Pack, including:
  - Forward Collision Warning
  - Traffic Sign Recognition System
  - Lane Departure Warning
  - Blind Spot Information incl. Cross Traffic Monitor

Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle and will show its speed in miles per hour.

Δ Available from Summer 2015. Please speak to your local dealer for further details.

* Connectivity for Aha™ app (including internet radio) and for internet browsing is through WiFi tethering or Mobile WiFi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package. Internet browsing function can only be used when the car is stationary. Note: Honda CONNECT is also MirrorLink enabled (this feature is only available where user’s smartphone is compatible with Honda CONNECT MirrorLink).

For full specification of this grade please refer to pages 43-46.

High-Power audio

Enjoy high quality sound through the advanced 320W audio system.

Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle and will show its speed in miles per hour.

EX grade

1.6 i-DTEC 4WD
- 6-Speed manual transmission
- 6-Speed automatic transmission

2.0 i-VTEC 4WD
- 6-Speed manual transmission
- 5-Speed automatic transmission
- 18" alloy wheels

In addition to features available on the SR grade, the features on the EX grade include:

- Full leather interior
- Door step garnish
- Panoramic glass roof
- Power tailgate
- Driver seat power adjust with memory
- Smart keyless entry and start

Honda CONNECT
Intuitive touchscreen in-car entertainment, with built-in satellite navigation to help you get from A to B.

Smart keyless entry and start
Allows you to lock, unlock and start the car whilst keeping the key in your pocket.

Honda SENSING, including Driver Assistance Safety Pack features plus:
- Collision Mitigation Braking System
- Lane Keeping Assist
- intelligent-Adaptive Cruise Control

Optional:
- Driver Assistance Safety Pack, including:
  - Forward Collision Warning
  - Lane Departure Warning
  - Smart Entry System
- Blind Spot Information

Panoramic glass roof
Providing light, air and a feeling of space.

Leather interior
Leather adds a touch of luxury to the already well appointed interior.

Power tailgate
Convenient one-touch opening and closing for easy loading.

Power seats
Travel in comfort with driver memory seats saving up to two preferred seating positions.

Model shown is 1.6 i-DTEC 4WD EX in Passion Red Pearl with 18" alloy wheels and optional Honda SENSING.

Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle and will show speed in miles per hour.

For full specification of this grade please refer to pages 43-46.
Whichever colour paint you choose for your CR-V, you can be sure that the high-quality upholstery will complement it perfectly.

Personalise your CR-V with genuine accessories, there are a variety of packs to choose from. These accessories have been designed alongside the CR-V to make sure that each product enhances the new model with the perfect fit, safety, security and durability.

**LIFE IS FULL OF CHOICES**

CARGO PACK

If you need to frequently transport luggage or specialised equipment for leisure or work, you may opt for the Cargo Pack, which offers a unique combination of storage solutions.

**PACK CONTENTS:**
- Premium Boot Opener
- Cargo Garnishes
- Boot Step Protector

Image includes 18" Hydra alloy wheels, available separately

CHROME PACK

Emphasise the elegance of your CR-V by adding several chrome accents to your car.

**PACK CONTENTS:**
- Tailgate Garnish
- Door Lower Garnish
- Front Grille
- Oval Exhaust Pipe Finisher

Image includes 18" Hydra alloy wheels, available separately

ILLUMINATION PACK

The Illumination Pack brings an ambient atmosphere to the interior and exterior of the vehicle.

**PACK CONTENTS:**
- Illuminated Doorstep Garnishes
- Puddle Lights

Image includes 18" Hydra alloy wheels, available separately

AERO PACK

Lower front and rear bumpers, a sleek tailgate spoiler and stylish running boards enhance the sophisticated, rugged and sporty look.

**PACK CONTENTS:**
- Aero Bumper Front
- Aero Bumper Rear
- Tailgate Spoiler
- Stylish Running Boards

Image includes 19" Cursa alloy wheels, available separately

To view all available accessories, download the accessory app on iTunes™ and Google Play™.

Images are shown for illustration purposes only and show left-hand drive vehicles. In the UK, the CR-V will be a right hand drive model.
PACKS AND SINGLE OPTIONS

ALLOY WHEELS

1. 17" CORRIS
2. 18" HYDRA
3. 19" CURSA
4. 19" SIRIUS
5. 19" VEGA
6. 19" ORION

CROSS BARS AND ROOF ATTACHMENTS

Expand your car’s carrying capacity with a strong, secure roof rack. Maximum load capacity: 75kg (max 80kg on roof).

AVAILABLE ATTACHMENTS:
•  Ski Box
•  Roof Box
•  Ski and Snowboard Attachment
•  Bicycle Roof Attachment

PREMIUM PACK

The Premium Pack is a package of accessories stylishly designed to protect your car from scrapes, scratches, mud and sand.

PACK CONTENTS:
• Side Body Trims
• Door Garnishes
• Front and Rear Mud Guards
• Stainless Steel Carpets
• Boot Tray

HONDA 3D SOUND

We will use our car sound systems to reproduce faithfully the music of our chosen artists - whether it’s a technical studio sound or the atmosphere of a full live performance. Through the addition of a compact DSP (digital signal processing) unit to the existing standard sound system in your Honda, you can enhance your driving experience to a concert hall feeling.

RUNNING BOARDS

For easier entering and exiting of your car, smoothly integrated running boards add design and functionality.

TWO TYPES ARE AVAILABLE:
• Stylish (asymmetrical)
• Full (symmetrical)

RUNNING BOARDSTABLET HOLDER

Watch videos, check e-mails, play games on your tablet or iPad of various sizes, with a convenient and stylish system attached behind the headrest at eye level. The holder can be used in a landscape or portrait position and can be tilted and rotated for relaxed viewing.

TOW BARS

A tow bar enables you to tow your caravan or trailer with a maximum towing capacity of 2000kg depending on your vehicle engine and transmission type. The maximum vertical load is 100kg.

THREE TYPES OF TOW BAR ARE AVAILABLE:
• Fixed • Detachable • Retractable

PREMIUM PACK

The Premium Pack is a package of accessories stylishly designed to protect your car from scrapes, scratches, mud and sand.

PACK CONTENTS:
• Side Body Trims
• Door Garnishes
• Front and Rear Mud Guards
• Stainless Steel Carpets
• Boot Tray

Tablet Holder

Watch videos, check e-mails, play games on your tablet or iPad of various sizes, with a convenient and stylish system attached behind the headrest at eye level. The holder can be used in a landscape or portrait position and can be tilted and rotated for relaxed viewing.

Tow Bars

A tow bar enables you to tow your caravan or trailer with a maximum towing capacity of 2000kg depending on your vehicle engine and transmission type. The maximum vertical load is 100kg.

Three Types of Tow Bar are Available:
• Fixed • Detachable • Retractable

To view all available accessories, download the accessory app on iTunes™ and Google Play™ ➞ Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the CR-V will be a right hand drive vehicle.
## Specification

### Key Features

- Intelligent Adaptive Cruise Control (i-ACC)
- Forward Collision Warning
- Lane Departure Warning
- Hill Start Assist (HSA)
- Vehicle Stability Assist (VSA)
- Brake Assist
- Collision Mitigation Braking System (CMBS)
- Traffic Sign Recognition System
- Brake Force Distribution (EBD)

### Additional Information

- Optional Honda CONNECT with Garmin Navigation & CD player only available with optional Driver Assistance Safety Pack.
- Maximum towing weights are based on a 12% gradient and are tested in accordance with EU Regulations.
- **Note:** Maximum permissible weight is 2100 kg.

* Connectivity for Aha™ app (including internet radio) and for internet browsing is through Wifi tethering or Mobile Wifi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone service provider’s plan and terms before you subscribe. Internet browsing function can only be used when the car is stationary. Note: Honda CONNECT is also MirrorLink enabled (this feature is only available where user's smartphone is compatible with Honda CONNECT MirrorLink).

**Optional Honda CONNECT with Garmin Navigation & CD player only available with optional Driver Assistance Safety Pack.** For more information, please contact your local Honda dealer.
Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. They can be the inspiration to design and build a true supercar like the dramatic new NSX, or the desire to create the sporty new Civic.

Dreaming of a better world for people to enjoy has given life to a humanoid robot called ASIMO, taken flight with HondaJet and created some of the most popular motorcycles on the planet. The knowledge we gain from all the things we do and all the things we learn, goes into everything we make, just like the CR-V.

FOLLOW YOUR DREAMS

Models shown are Civic 5 door Sport in Brilliant Sporty Blue Metallic and NSX Concept.
